\* Explanation of the appropriate use of financial forecast:

The financial forecasts and estimates in this Summary of Consolidated Financial Results are based on information available to the Company at the time of report issuance and certain assumptions judged to be reasonable by the Company, and therefore are not guarantees of future performance. Consequently, actual results may differ substantially from those described in this Summary of Consolidated Financial Results. Please refer to "1. Overview of Operating Results and Consolidated Financial Conditions (4) "Future Forecast" on page 7. The Company plans to hold an online conference for investors and analysts on May 11, 2023. Supplementary materials to be used at the conference will be posted on the Company's website.

# 1. Overview of Operating Results and Consolidated Financial Conditions

## (1) Overview of Operating Results

### (i) Business Environment during the Fiscal Year Ended March 31, 2023

The global economy during the current consolidated fiscal year slowed due to persistent inflation of raw material, energy, and various goods in conjunction with heightened geopolitical risks, interest rate hikes, and rapid exchange rate fluctuations mainly in Europe and the United States. The Company continues to closely monitor the impact of these global economic and geopolitical headwinds and the impact on the supply chain.

On the other hand, in the electronics industry, where the Tokyo Electron (TEL) Group operates, the role of semiconductors that support electronic devices and their technology innovations are becoming more and more important, against the backdrop of the transition to a data society accompanying the expansion of information and communication technology and efforts to create a decarbonized society. With its increased importance, the semiconductor production equipment market has become the largest ever.

### (ii) Overview of Profit and Loss during the Fiscal Year Ended March 31, 2023

In this environment, the consolidated business results for the fiscal year under review are as follows.

Net sales for the fiscal year increased 10.2% from the previous fiscal year to 2,209,025 million yen. Domestic net sales increased 4.2% from the previous fiscal year to 239,937 million yen, while overseas net sales increased 11.0% to 1,969,088 million yen to account for 89.1% of net sales.

Cost of sales increased 12.1% to 1,224,617 million yen and gross profit increased 8.0% to 984,408 million yen. As a result, the gross profit margin decreased 0.9 points to 44.6%.

Selling, general and administrative (SG&A) expenses increased 17.3% to 366,684 million yen, while the ratio to consolidated net sales increased 1.0 points to 16.6%.

As a result, operating income increased 3.1% to 617,723 million yen and operating profit ratio decreased 1.9 points to 28.0%. After netting of non-operating income of 10,066 million yen and non-operating expenses of 2,604 million yen, ordinary income increased 3.9% to 625,185 million yen.

Income before income taxes was 624,856 million (year-on-year growth of 4.7%) and net income attributable to owners of parent was 471,584 million yen (year-on-year growth of 7.9%).

As a result, net income per share was 1,007.82 yen compared to net income per share of 935.95 yen in the previous fiscal year.

**(iii) Overview of Operations by Business Segment during the Fiscal Year Ended March 31, 2023**

The overview of each business segment is as described below.

**Semiconductor Production Equipment**

Capital investment in semiconductors for logic/foundry has been made in a wide range of areas, from cutting-edge to mature generations of semiconductors, driven by the digitalization of society. Capital investment in memory was revised starting in the second half of the fiscal year due to inventory adjustments but remained at a high level throughout the fiscal year.

Consequently, net sales to external customers in this segment during the fiscal year under review were 2,155,206 million yen (year-on-year growth of 10.9%).

**Flat Panel Display (FPD) Production Equipment**

As capital investment for large-sized LCD panels for televisions has run its course, the overall manufacturing equipment market for FPD TFT arrays has slowed. Meanwhile, capital investments in small and medium-sized OLED panels continue in conjunction with displays installed in end products being converted from LCD panels to OLED panels.

Consequently, net sales to external customers in this segment during the fiscal year under review were 53,674 million yen (year-on-year decrease of 10.3%).

**Other**

Net sales to external customers in this segment during the fiscal year under review totaled 144 million yen (year-on-year growth of 10.0%).

**(2) Overview of Consolidated Financial Conditions**

Current assets at the end of the current fiscal year were 1,740,959 million yen, an increase of 332,256 million yen compared to the end of the previous fiscal year. This was mainly due to an increase of 198,825 million yen in cash and deposits, an increase of 178,363 million yen in inventories.

Tangible fixed assets increased by 36,010 million yen from the end of the previous fiscal year, to 259,088 million yen.

Intangible fixed assets increased by 6,019 million yen from the end of the previous fiscal year, to 28,559 million yen.

Investments and other assets increased by 42,850 million yen from the end of the previous fiscal year, to 282,986 million yen.

As a result, total assets increased by 417,136 million yen from the end of the previous fiscal year, to 2,311,594 million yen.

Current liabilities increased by 161,314 million yen from the end of the previous fiscal year, to 629,893 million yen. This was largely due to an increase of 186,614 million yen in customer advances, and a decrease of 36,015 million yen in income taxes payable.

Long-term liabilities increased by 3,345 million yen from the end of the previous fiscal year, to 82,175 million yen.

Net assets increased by 252,476 million yen from the end of the previous fiscal year, to 1,599,524 million yen. This was largely due to an increase of 471,584 million yen resulting from recording net income attributable to owners of parent, a decrease resulting from the payment of 252,988 million yen in year-end dividends for the previous fiscal year and interim dividends for the current fiscal year, and an increase of 13,960 million yen in net unrealized gains on investment securities. As a result, the equity ratio was 68.7%.

**(3) Overview of Consolidated Cash Flows**

Cash and cash equivalents at the end of the current fiscal year increased by 136,823 million yen compared to the end of the previous fiscal year, to 472,471 million yen. The combined balance including 628 million yen in time deposits and short-term investments with maturities of more than three months that are not included in cash and cash equivalents was 473,100 million yen, an increase of 101,825 million yen from the end of the previous fiscal year. The overall situation regarding cash flows for the fiscal year was as described below.

Cash flows from operating activities were positive 426,270 million yen, an increase of 142,882 million yen compared to the end of the previous fiscal year. The major positive factors were 624,856 million yen in income before income taxes, and a 185,616 million yen increase in customer advances. The major negative factors were 209,111 million yen in payment of income taxes, and a 173,487 million yen increase in inventories.

Cash flows from investing activities were negative 41,756 million yen compared to negative 55,632 million yen in the same period of the previous fiscal year. This was largely due to the payment of 66,897 million yen for the purchase of tangible fixed assets.

Cash flows from financing activities were negative 256,534 million yen compared to negative 167,256 million yen in the same period of the previous fiscal year. This was largely due to the payment of 252,988 million yen in dividends.

**(4) Future forecast**

Due to concerns about a macro-economic slowdown and geopolitical risks, semiconductor manufacturers are postponing or restraining capital investments. In this business and economic environment, in the fiscal year ending March 31, 2024, while reducing fixed costs, however in anticipation of future growth, we plan to invest approximately 200 billion yen in research and development (R&D), the largest ever. In light of these factors, the consolidated financial forecasts for the fiscal year ending March 31, 2024 are as follows. Meanwhile, as described above, due to the importance of innovating semiconductor technologies (including the aspects of high capacity, high speed, high reliability, and low power consumption) stemming from the transition to a data society accompanying the expansion of information and communication technology and efforts toward realizing a decarbonized society, the semiconductor production equipment market is expected to further grow in the future, and we expect to see a major recovery in the fiscal year ending March 31, 2025.

**Consolidated Financial Forecast** (Billions of yen, Y/Y change)

Year ending March 31, 2024	Interim		Full Year	
Net Sales	790.0	(33.2)%	1,700.0	(23.0)%
Operating Income	161.0	(54.0)%	393.0	(36.4)%
Ordinary Income	162.0	(54.1)%	395.0	(36.8)%
Net Income Attributable to Owners of Parent	120.0	(55.1)%	300.0	(36.4)%

Note: The financial forecasts and estimates stated in this announcement are based on certain assumptions judged to be reasonable by the Company in light of information currently available concerning economic conditions in Japan and overseas, fluctuations in foreign exchange rates, and other factors that may have an impact on performance. The Company does not promise that the forecasts or estimates will be accurate.

They are therefore susceptible to the impact of many uncertainties, including market conditions, competition, the launching of new products (and their success or failure), and global conditions in the semiconductor related industry. Consequently, actual sales and profits may differ substantially from the projections stated in this announcement.

**(5) Basic Policy on Profit Allocation and Payment of Dividends for the Current and Next Fiscal Years**

TEL utilizes capital reserves to raise corporate value through earnings growth and provide returns directly to shareholders by concentrating investment in high-growth areas and linking dividend payments to business performance. Basic policy concerning shareholder return is as follows.

## Shareholder Return Policy

- Our dividend policy is to link dividend payments to business performance on an ongoing basis and a payout ratio is around 50% based on net income attributable to owners of parent, with the conditions that an annual dividend per share is not less than 150 yen. Besides, TEL will review our dividend policy if TEL does not generate net income for two consecutive fiscal years.

Note: The Company split its common stock effective April 1, 2023 in the proportion of one share into three shares. Accordingly, from the next fiscal year (year ending March 31, 2024), dividend per share is not less than 50 yen.

- TEL will flexibly consider share buybacks.

The year-end dividends for the current fiscal year (the year ended March 31, 2023) are 854 yen per share (including the 60<sup>th</sup> anniversary commemorative dividends of 200 yen). The dividends for the full year are 1,711 yen per share, which includes the interim dividends of 857 yen per share.

	Dividends per share		
	2Q-end	Year-end	Total
Current fiscal year (ended March 31, 2023)	857 yen	854 yen (Commemorative:200 yen)	1,711 yen

The dividends for the next fiscal year (the year ending March 31, 2024), which are the amount after the stock split, are forecasted to be 320 yen per share for the entire year (interim dividends : 128 yen, year-end dividends : 192 yen), in accordance with the above consolidated forecast for net income attributable to owners of parent for the next fiscal year.

	Dividends per share		
	2Q-end	Year-end	Total
Next fiscal year (ending March 31, 2024)	128 yen	192 yen	320 yen

## 2. Basic philosophy on the selection of accounting standards

The consolidated financial statements of TEL group have been prepared in conformity with accounting principles generally accepted in Japan. In regard to the application of IFRS, we will pay close attention to domestic and international implementation adoption trends and respond accordingly.

## Segment information

### 1. General information about reportable segments

A reportable segment is a component or an aggregated component of TEL Group. For each of the components, discrete financial information is available and the operating result is regularly reviewed by management to make decisions about resources to be allocated to the segment and assess its performance.

The operation of TEL Group consists of segments by products and services based on business units (BUs), and TEL Group identifies as a reportable segment, "semiconductor production equipment (SPE)" and "flat panel display (FPD) production equipment". Products of the SPE segment consist of coater/developers, etch systems, deposition systems, cleaning systems used in wafer processing, wafer probers used in the wafer testing process and other semiconductor production equipment, such as wafer bonders/debonders.

The SPE segment principally develops, manufactures, and sells such products, and provides services related to them.

Products of the FPD production equipment segment mainly consist of etch/ash systems used in the manufacture of flat panel displays.

The FPD production equipment segment principally develops, manufactures, and sells such products, and provides services related to them.

### 2. Means to measure net sales and profit or loss in each reportable segment

The method used to account for each reportable segment is similar to those applied to prepare consolidated financial statements.

Intersegment revenues or transfers are based on prevailing market prices.

### 3. Net sales and profit or loss in reportable segments

Year ended March 31, 2023

Net income per share (Yen)	1,007.82
Fully diluted net income per share (Yen)	1,003.86

## Notes:

1. The Company implemented a 3-for-1 common stock split on April 1, 2023. "Net assets per share", "Net income per share" and "Fully diluted net income per share" are calculated on the assumption that stock split was implemented at the beginning of the previous fiscal year.

2. Net income per share and fully diluted net income per share are calculated based on the following elements.

Net income per share (Yen)	
Net income attributable to owners of parent (Millions of yen)	471,584
Net income not pertaining to owners of common stock (Millions of yen)	-
Net income attributable to owners of parent pertaining to common stock (Millions of yen)	471,584
The average number of common stock (Thousands of share)	467,926
Fully diluted net income per share (Yen)	
The adjustments to net income attributable to owners of parent (Millions of yen)	-
Increase in common stock (Thousands of share)	1,843
[Share subscription rights (Thousands of share)]	[1,843]
Details of dilutive shares, not included in the computation of fully diluted net income per share as there is no dilution effect.	-

3. The shares of the Company held by "Executive compensation Board Incentive Plan (BIP) trust" and "share-delivering Employee Stock Ownership Plan (ESOP) trust", which are recorded in "Treasury stock, at cost" under shareholders' equity, are included in the treasury stock which is deducted from the number of shares issued and outstanding as of the end of the period when calculating net assets per share. The shares held by the trusts are also included in the treasury stock which is deducted from the number of shares used to calculate the average number of shares outstanding in the period when calculating net income per share and fully diluted net income per share.

The number of treasury shares deducted in the calculation of net assets per share was 1,502 thousand shares as of the end of this fiscal year, and the average number of treasury shares deducted in the calculation of net income per share and fully diluted net income per share was 1,614 thousand shares in this fiscal year.

**Significant subsequent events****1. Stock split and corresponding partial amendment to the Articles of Incorporation**

The Company implemented a stock split and made a corresponding partial amendment to the Articles of Incorporation on April 1, 2023, in accordance with the resolution of its Board of Directors on February 9, 2023.

**(1) Purpose of stock split**

By implementing the stock split to lower the minimum investment, the Company intends to make shares more affordable for investors, with a view to expanding the investor base.

The Company recognizes that transitioning to a share price per unit within the ideal range recommended by the Tokyo Stock Exchange (between 50,000 yen and 500,000 yen) would be useful in terms of encouraging market participation by individual investors. Going forward, the Company will continue to comprehensively consider future stock market trends, the price and liquidity of the Company shares, and changes to the shareholder structure.

**(2) Overview of stock split****(i) Split method**

The Company split the shares of common stock owned by shareholders recorded in the final register of shareholders as of March 31, 2023, in the proportion of 1 share into 3 shares.

**(ii) Number of shares increased through stock split**

Total number of issued shares before stock split:	157,210,911 shares
Number of shares increased through stock split:	314,421,822 shares
Total number of issued shares after stock split:	471,632,733 shares
Total number of authorized shares after stock split:	900,000,000 shares

**(iii) Schedule of stock split**

Date of public notice of record date:	March 16, 2023
Record date:	March 31, 2023
Effective date:	April 1, 2023

**(iv) Effect on per share information**

The effect on per share information is described in "Per share information".

**(3) Partial amendment to the Articles of Incorporation****(i) Reason for amendment**

In accordance with the provisions of the Article 184, Paragraph 2 of the Companies Act, the Company changed the total number of authorized shares stipulated in Article 6 of the Articles of Incorporation as of April 1, 2023, in response to the implementation of the stock split.

**(ii) Details of amendment**

The details of amendment are as follows.

(Amended parts are underlined)

Current Articles of Incorporation	Amended Articles of Incorporation
Article 6 Total Number of Authorized Shares The total number of shares the Company is authorized to issue shall be <u>three hundred million (300,000,000)</u> shares.	Article 6 Total Number of Authorized Shares The total number of shares the Company is authorized to issue shall be <u>nine hundred million (900,000,000)</u> shares.

**(iii) Schedule of amendment**

Effective date of amendment of the Articles of Incorporation: April 1, 2023

**(4) Other****Dividends**

As the effective date of the stock split was April 1, 2023, year-end dividends for the fiscal year ended March 2023, to all shareholders with a record date of March 31, 2023, will be implemented based on the number of shares issued prior to the stock split.

## 2. Share repurchase

At the Board of Directors meeting held on May 11, 2023, the Company resolved to acquire its own shares under the provisions of its Articles of Incorporation pursuant to paragraph 1, Article 459 of the Companies Act, as follows.

### (1) Reason for acquisition of own shares
